

Anti bullying strategy

Child

Individual and group interventions for identified children showing harmful behaviours

Psycho education and awareness raising, teaching the impact bullying has on self, others and the school community

Educating children to be mindful of other children's needs

Listening to each other

Bullying drop box

Create an anti-bullying awareness video for our You Tube channel

Families

Communicate with each other

Report any concerns

Intervene early before it leads to further action

Support families where needed

Team

Listen to our children

Represent and socially model a diverse and equal environment

Effective team communication to prevent further incidents and create effective plans to reduce further harmful behaviours

Understand the why and create an open environment that children feel able to report

Listen and support our families

Multi-agency approach to ongoing identified behaviours
